

### Claim Listing

1-13. (Cancelled without prejudice)

14. (Original) A device for marking a plurality of marks comprising:

means for masking having a plurality of holes disposed along the length of said means for masking at predetermined intervals; and  
means for dispensing a marking medium disposed along the length of said means for masking and further positioned such that at least a portion of said marking medium passes through said plurality of said holes.

15. (Original) The device of claim 14 wherein said means for masking comprises a free end and means for dispensing is attached to said free end of said means for masking.

16. (Original) The device of claim 14 wherein said means for masking comprises indicia at chosen locations.

17. (Original) The device of claim 14 wherein said means for masking comprises a free end and said means for dispensing comprises a line tip, said line tip adapted to removably engage said free end of said means for masking.

18. (Original) The device of claim 14 further comprising:

first means for storing at least a portion of said means for masking;  
and

second means for storing at least a portion of said means for dispensing.

19. (Original) The device of claim 18 further comprising a spring retraction mechanism adapted to retract said means for masking onto said first means for storing.

20. (Original) The device of claim 18 further comprising a lock mechanism adapted to lock said means for masking.

21. (Original) The device of claim 18 further comprising a crank handle engaged to said second means for storing adapted to retract said means for

dispensing onto said second means for storing when said crank handle is actuated.

22. (Original) The device of claim 21 wherein said crank handle is further adapted to retract said means for masking onto said first means for storing when said crank handle is actuated.
23. (Original) The device of claim 14 further comprising a means for dispensing chalk onto said means for dispensing.
24. (Original) The device of claim 14 further comprising a means for dispensing ink onto said means for dispensing.
25. (Original) The device of claim 14 having a first compartment comprising first means for storing and a second compartment comprising said second means for storing wherein said first compartment and said second compartment are separable.
- 26-36. (Cancelled without prejudice)
